<p>Why I am a part of the Vital Cycles Board</p>	<p><i>I became a founding board member because of my profound and passionate desire to help shape a healing program and process that could support both me and others! My personal goal has been to address the effects of a traumatic childhood by focusing and living joyfully in the present, not by denying the events in my past, but by exploring and dealing with the emotions, the memories and the content in a way that is profound, honest and authentic. Vital Cycles shapes a sustaining process that supports me as I continue to attain more joy and less pain!</i></p>
